

For your business

Compressed air systems

Saving energy is in the air

AES Indiana's Custom Incentives program offers incentives for energy-efficient improvements in compressed air systems, aiming to save up to 50% of energy used and help to address operational issues such as leaks and compressor over-cycling.

Three pathways to savings

Leak repair assistance

Interested in routine maintenance? Sign up for AES Indiana's compressed air leak repair assistance and enjoy routine maintenance at reduced or no cost. Ask your contractor for more information or call [888-982-7071](tel:888-982-7071) to learn more.

- Leak repairs – earn an incentive of \$0.08 per kWh saved, amount limited to audit and repair project cost
- Engineered nozzles – provided at no cost for qualifying customers

Prescriptive rebates

Installing specific equipment? Complete one of the following upgrades and apply for your rebate using our Prescriptive HVAC Application.

- Low-pressure filter – \$7.00 per HP
- No-loss condensate drain/valve – \$400 per drain/valve
- Air compressor with variable frequency drive controls (≤ 75 HP) – \$75 per HP

Custom Incentives

Choose your own unique project and receive an incentive payment based on the first year of energy savings.

- The program pays \$0.08 per kWh saved, based on the first year of energy savings.
- Incentives are capped at 50% of total project cost, up to \$1,000,000 per project.

Email us at custom@aesindianarebates.com to review your project's savings potential or call [888-982-7071](tel:888-982-7071) to speak to a program representative.

Efficient compressed air system benefits

- Enhanced system performance through optimized air usage
- Improved manufacturing system quality and control
- Elimination of a secondary compressor
- System reliability with clean, dry air delivery at appropriate pressures
- Reduced operational downtime and maintenance needs

Energy-saving opportunities

- Air compressor controls
- Large compressor replacement
- Cycling dryers
- Air distribution system redesign
- Mist eliminators
- Dew point controls

AES Indiana's Custom Incentives program expands your opportunities to save. Work with a program representative to determine your project's eligibility prior to completing your compressed air upgrade. AES Indiana can even help you determine which energy upgrades are right for your business.
